

Rob from C&R Tree Service company estimates the dead trees, and told me to cut down these six dead trees in Odyssey Dr. open area and stay put in the woods will cost \$3,500. If only take Odyssey D-tree-1 down, it will cost \$1,500.

To cut down and clean up the dead tree in Oracle road will cost \$3,250. He told me to clean up the branches and stem will cost the

same as laid down a tree. And this dead tree has to be cleaned since there is no woods, but lawn near by.

Therefore, the total project will cost \$6,750, but if we only cut two dead trees (Oracle D-tree 1 and Odyssey D-tree 1) there will be \$4,750. In my opinion, we need to do the whole project if our budget is enough.

I called two more vendors to come to estimate. They may bring us the different number

Hugh. 11/19/2021

Oracle D-tree 1
